

# ChargePoint 6000 Series

Level 2 AC charging for businesses

Prepare for the future of electric mobility with a complete, connected charging solution.

## Maximize charging, minimize complexity

The ChargePoint® 6000 Series (CP6000) makes you part of the future of electric mobility, now. Our integrated electric vehicle (EV) charging solution offers convenient, reliable AC charging for your employees, customers, visitors, residents or fleets. No matter what your organization's goals or your drivers' needs, we provide a complete package that makes it easy to get started and measure success. With flexible software controls, advanced station design and power management capabilities, you can easily scale your charging capacity while controlling costs.

### ChargePoint's integrated solution includes:

- + Charging management software
- + Station hardware providing up to 19.2 kW per port
- + Driver app and network
- + Owner and driver support
- + ChargePoint Assure® service program
- + Turnkey installation via partner network

## Ready to charge where your business needs it

## Manage charging with ease

Flexible software simplifies charging management and makes it easy to update settings as you go. Monitor usage, set pricing, manage energy and simplify reporting across all your stations, including hardware already installed.

### Comprehensive

Eliminate uncertainty and make charging work for your business by accessing all the controls, real-time status and analytics you need.

### Dynamic

Make your investment go further through flexible pricing policies, driver access control, Waitlist and more.

### Optimised

Reduce electrical upgrade and energy costs while serving more drivers with Power Management.

## Prepare for tomorrow

CP6000 is ready to serve your drivers now and grow with your changing needs to meet new demand. Future-proof your charging with modular station hardware and automatic software updates for the latest features.

### Scalable

Manage costs and complexity as you grow with a solution designed to anticipate future requirements.

### Configurable

Tailor charging to your needs, thanks to flexible power inputs, station configurations and installation options.

### Modular

Simplify installation and field servicing with a modular station design.

## Keep your drivers happy

Reduce operational headaches, keep stations in use, improve productivity and generate positive brand association by enhancing driver satisfaction. ChargePoint provides everything you need to give your drivers a superior charging experience.

### Effortless

Deliver unique value to your organization by giving drivers charging designed for convenience and accessibility.

### Supported

Provide excellent service without additional effort by relying on our multi-language driver support.

### Connected

Attract drivers and make charging easier with our broad charging network, roaming partnerships, mobile app and driver services.

## Charge with confidence

Reliable charging is critical for your business and your drivers. Choose the solution you can depend on to maximize charging availability, minimize operational disruption and control total cost of ownership.

### Reliable

Keep charging ready with tested solutions engineered for quality, safety and continuous use.

### Integrated

Save time and effort with a complete solution and a single partner for your software, hardware, service and support needs.

### Protected

Succeed without distractions thanks to ChargePoint Assure, our industry-leading maintenance and management service package.

## Benefits of the ChargePoint 6000 Series

Get automatic software updates using reliable cellular connectivity and OCPP communication to the ChargePoint cloud.

Increase station availability with a rugged station designed for easy maintenance.

Enhance visibility with real-time LED charging status indicators.

Make it easy for authorized drivers to start charging with multiple authentication methods (NFC, RFID, remote and more).

Reduce installation and operational costs with dual port stations that efficiently serve two parking stalls.

Reinforce your brand with customizable station inserts and video uploads for the display.

Keep cables clean and safe for low-hassle charging using integrated cable management.

Give drivers access to pricing information, instructions and charging status with a 8" (inch) interactive display supporting multiple languages, video upload and gesture controls.

Focus on your core business by relying on ChargePoint Assure for proactive monitoring, uptime guarantees, and committed service levels.

Turn capital expenses into a predictable operational expense by getting the CP6000 solution as a subscription through ChargePoint as a Service®.

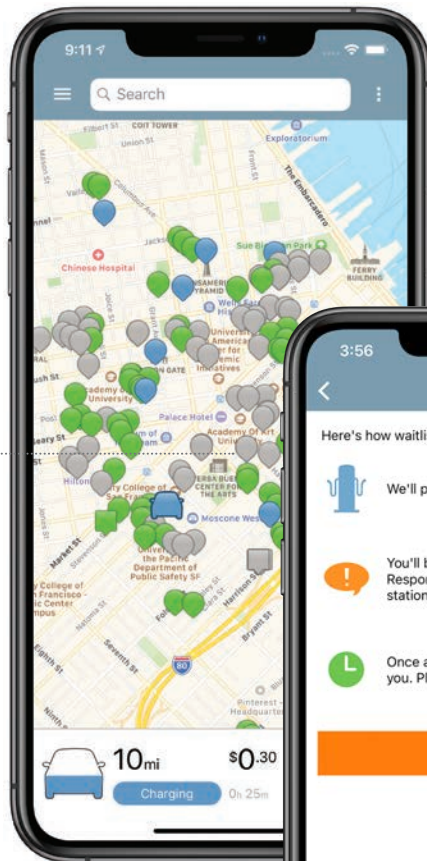

Gain peace of mind by relying on ChargePoint support to help drivers get charging faster.

Make your investment go further with flexible settings, pricing policies, dashboards, analytics and more. Manage your existing Open Charge Point Protocol (OCPP) compliant stations with ChargePoint network software.

Avoid electrical upgrades, reduce electricity bills and serve more drivers with Power Management.

Attract drivers by making your stations part of the broad ChargePoint network.

Enhance driver satisfaction with the user-friendly ChargePoint app. Integrations with vehicle systems and navigation apps provide drivers seamless access to your stations and the ChargePoint network wherever they go.

Maximize station use and save time with Waitlist, which lets drivers enter a queue if all ports are in use and get notified when it is their turn to plug in.

## Specifications

Feature	Description
Power	3.7 - 19.2 kW per port
Connectivity	4G LTE with GSM as backup
Authentication and payment	RFID, tap to charge (NFC), remote via mobile app or in vehicle, contactless credit card, EMV chip credit card option (for -CHIP models only)
Interface	8" (inch) interactive display with full colour, UV protection, gesture touch controls and multi-language support
Connector	SAE J1772 cable
Network communication protocol	OCPP 2.0.1
ISO 15118 standard	Supported
Operating temperature range	-40°C to 50°C
Certifications	UL Certified, Energy Star Certified*

## Configuration options

Feature	Description
Port type	Integrated cable
Number of ports	Dual, single
Mounting options	Pedestal, wall
Cable length	18', 23'

\* Energy Star Certified only applies to dual port versions of the CP6000 hardware.

### Pedestal mount
